ALSOP'S EAST INDIA PALE ALE.

Messrs. Wessell & Thompson, HAVING been appointed by Mr. Arthur Kendall, of N. Y., sole agent for Messra. S. All opp & 'oos, agen', in the sale of this celebrated English Ale, beg leave to subjoin testimonials for the information of the public, from the leading Physicians and Chemists of the day, as to the medical It is particularly recommended to invalids and as a general

"The specimens of your Pale Ale sent to me afforded me another opportunity of confirming its valuable qualities. I am myself an admirer of this beverage, and my own experience enables me to recommend it, in accordance with the opinion of the most eminent English physicians, as a very as recable and efficient tonic, and as a general beve age both for the invalid and the robust, "Giessen, May 6,"

From Professor Graham, F.R.S., University College, London; and Prof. Hofmann, Ph.D. F.R.S., College of Chemistry, London. "The sifting nature of the chemical examination which the Bers of Messrs ALLSOPP'S manufacture for many norths past have been subjected to, fully establishes their neontestable purity. The process of browing Pale Ale is one in which nothing but water and the best mall and hope one in which nothing but water and the best mail and hope, of the first quality, are used; it is an operation of the greatest delicacy and care, which would be entirely ruined by any tampering with the materials employed.

"London, April 20."

From the Analytical Sanitary Commissioner of the "Loncet," May 15, 1852.
"From the pure and wholerome nature of the ingredients employed, the moderate proportion of alcohol present, and the very considerable quistilly of aromatic anodyne bitter derived from hops contained in these Beers, they tend to preserve the tone and vigor of the Stomach, and conduct othe restoration of the health of that organ when in a state of weakness or deblity. They reamble, indeed, from their lightness, a Winner Many rather than an ordinary fermented infusion; and it is very satisfactory to find that a beverage of such general consumption is entirely free from every kind of impurity."

From Prof. Muspratt, F.R S.E. member of the Royal "I have carefully examined and analysed samples o your Airs, and find that they do not contain a particle of any in wious satistance. I and my family have used your Ales for years, and with perfect confidence in their purity. I know that pale Ale, when prepared, as it must be in your Brewery, under scientific surveillance, contains a large quantity of nutritious master; and the hop, by its tonic properties, gives a healthy tone to the stomach. "College of Chemistry, Liverpool, April 20."

From George Budd, M D. Senier Physician of King's College Hospital,
"I did not want any testimony to satisfy me of the per fect purity of the Pale Ale manufactured by you. A close observation of its effect upon moself, and upon many others to whom I have prescribed it, long ago convinced me, as much as the most searching chemical analysis could do, that it contains nothing more than malt and hops, and that it is a first-rate beverage,"
"Dover street, May 1."

From Marshall Hall, M. D., F.F.S. "My confidence in the parity of your Pale A'e remains unshaken and my opinion of its great value in a dietetic and remedial point of view is entirely confirmed by long From Banfield Vivian, E.q., Surgeon.

"ALLSOP 's Pale and Bitter Ale is one of the most useful of beverages, possessing exceedingly valuable tonic propesties in an elegans form Lapuline, or the active princi-ples of the bop, is a well known tonic, but is apt to disagree with the stomach when given simply; it is usual, then, when prescribed, to combine it with some corrigent; no better can be than the extractive matters of malt; hence, as the analysis of your Beer has proved it to be a fermented solution of malt and hope only, we have a most useful medicine in a most acceptable form. "Crown, Cornwall, June 7." From James Petrie, M. D.

"For many years I have been in the habit of recommend-ing the use of ALLSOPP's Bit'er Beer as a beverage to invalids who required a regulated diet; and I certainly could not have done so, unless from the evidence that the liquor was perfectly fermented, and made from the best and most wholesome ingredients. Where drinks of a nutritive and stomachic character are indicated, I know of none, as yet, on which I feel I could so safely depend for doing good, as ALLSOPPS Bitter Beer. "Liverpool, May 6."
